Dhruv Patel

Full Stack Developer
dhruvvpatel1214@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Final-year Computer Engineering student and Full Stack Developer with knowledge of the MERN stack and experience building responsive web applications. Skilled in developing user interfaces, integrating REST APIs, and working with databases and authentication. Familiar with deploying web applications on Vercel and Render, with a focus on clean, user-friendly, and functional web experiences.

TECHNICAL SKILLS

Languages: JavaScript, Python, C, C++, Java

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Responsive Web Design, CSS Grid, Flexbox

Backend: Node.js, Express.js, REST APIs, Middleware, Authentication & Authorization

Database & Storage: MongoDB, Mongoose, LocalStorage

AI/ML & LLMs: Artificial Intelligence, Machine Learning, Neural Networks, LLM Fundamentals

Developer Tools: Git, GitHub, Postman, Vite, VS Code, Figma

CS Fundamentals: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Computer Networks, Software Engineering

CERTIFICATIONS

Python for Data Science - NPTEL (SWAYAM), IIT Madras Jul - Aug 2025

Full Stack Development with MERN - ThingQbator / Zikshaa / Nasscom Foundation

PROJECTS

KisanAI - Crop Disease Detection Platform **Code** **Live**

Tech Stack: React, Tailwind CSS, Python, FastAPI, MongoDB Atlas

- Collaborated on a full-stack platform that classifies crop leaf diseases from uploaded photos, reports confidence and severity, and recommends organic and chemical treatments with a weather-based spraying advisory.
- Integrated the React client with a FastAPI backend featuring JWT-protected API routes and bcrypt password hashing, with scan history persisted in MongoDB Atlas; deployed on Vercel and Render.

SkyMart - E-Commerce Platform **Code** **Live**

Tech Stack: React, Tailwind CSS, React Router, Context API, LocalStorage

- Built a responsive storefront with product search, category filters, sorting, URL-synced pagination, product detail pages, and a persistent slide-over cart.
- Implemented client-side authentication, protected routes, and a demo checkout flow (no backend or payment gateway), with state managed through Context API and LocalStorage.

ProductiveMind - Productivity Dashboard **Code** **Live**

Tech Stack: HTML, CSS, JavaScript, CSS Grid, Flexbox, LocalStorage

- Built a productivity workspace with a Pomodoro timer, task manager, daily goals tracker, and hourly planner, with todos, goals, and schedules saved in LocalStorage.
- Integrated Open-Meteo weather and DummyJSON quote APIs, with a responsive layout across desktop, tablet, and mobile.

FinTrack Pro - Personal Finance Dashboard Code Live

Tech Stack: HTML, CSS, JavaScript, Chart.js, LocalStorage

- Built a browser-based finance dashboard for tracking income and expenses, with transaction add, edit, and delete, plus search and income/expense filtering.
- Visualized cash flow with an interactive Chart.js bar chart that updates as data changes, with currency and dark mode settings and data stored in LocalStorage.

SkyCast - Weather Forecast App Code Live

Tech Stack: HTML, CSS, JavaScript, WeatherAPI.com, Vercel Serverless Functions

- Built a responsive weather app with city search, browser geolocation, hourly and 7-day forecasts, and detailed weather metrics, with light and dark themes.
- Added a Vercel Serverless Function that proxies WeatherAPI.com requests to keep the API key out of client code.

EDUCATION

LDRP Institute of Technology and Research, KSV Gandhinagar, Gujarat
B.E. in Computer Engineering Expected Apr 2027
Cumulative CGPA: 7.18/10 (through Semester 6)

Nirmal Vidhyalay Morbi, Gujarat
12th | Science Stream | Board: GSHSEB Jul 2022 - Jul 2023
Cumulative Percentage: 69.5%

Nilkanth Vidhyalay Morbi, Gujarat
10th | Board: GSHSEB Jul 2020 - Jul 2021
Cumulative Percentage: 87.33%
